

## "SHEEP" SERIES LIGHT DUTY PENS

The 2W "Sheep" Series Light Duty Pens are designed primarily to handle sheep but also can be used for other small livestock. As opposed to the 2W "Hog & Goat" Light Duty Pens the "Sheep" Series Pens utilize horizontally placed rails, and are variable rail spaced. Built from 14 Gauge - 1½" diameter round steel tube and 16 gauge - 1" x 1" square steel tube these pens retain high assembly strength while still being easy to move and assemble.
